

### **AMENDMENTS TO THE DRAWINGS**

The attached sheet of drawings includes changes to Fig. 1. This sheet replaces the original sheet.

In paragraph 2 of the Office Action, the Examiner objected to Fig. 1 for not including brief descriptive labels for each box and line shown. The two boxes at the bottom of original Fig. 1 have been removed as being unnecessary. The figure has also been amended to clarify that the sending UTRAN and UE are different from the receiving UTRAN and UE, and thus have been given different reference numerals.

The paragraph in the specification on page 12, line 5 through page 13, line 5 makes it clear that the sender of the message can be either the sending UTRAN or the sending UE, and the receiver of the message can be either the receiving UTRAN or the receiving UE. This paragraph has been amended below to add the new reference numerals. Fig. 1 has been amended to more clearly illustrate this fact. No new matter has been added.
